REGISTER NOW FOR THE DETROIT REGION, SCCA SOLO SCHOOL!!  
JUNE 20-21<sup>st</sup>!

Solo, or “autocross” events are driving skill contests that challenge the driver’s ability and the car’s handling characteristics by driving through a timed course marked by traffic cones in a low-hazard location such as a parking lot or inactive runway. Whether you’re a novice competitor with only a few events under your belt, or someone who has never heard the word “autocross” before and would like to learn to control a car at its limit with more confidence and control, ***this school is for you!***

The classroom session will introduce the basic concepts of solo competition-from what an event is and how it’s run, to basic performance driving theory. The in-car session the following day will serve to re-emphasize and build upon these concepts by letting you experience them first hand, in your own car, under the instruction of experienced solo competitors.

This is the perfect opportunity to learn more about how our sport works, and how to become better at it!

With the limit of students being 80 -  
we hope to be able to provide each student with 10-14 runs.

Classroom session - Friday, June 20 - 6-10p\*\*

In-Car session - Saturday, June 21 - 8a-4p\*\*

Lunch will be provided on Saturday

\*\*Times for both sessions are tentative - the classroom session could end earlier than planned, and the in-car session could potentially run longer than planned - both dependant upon on the number of students we have enroll in the school.

More solid times will be posted as the event draws closer.\*\*
